1 Speaker Turn Distribution

Gantt chart · Speaking time per participant

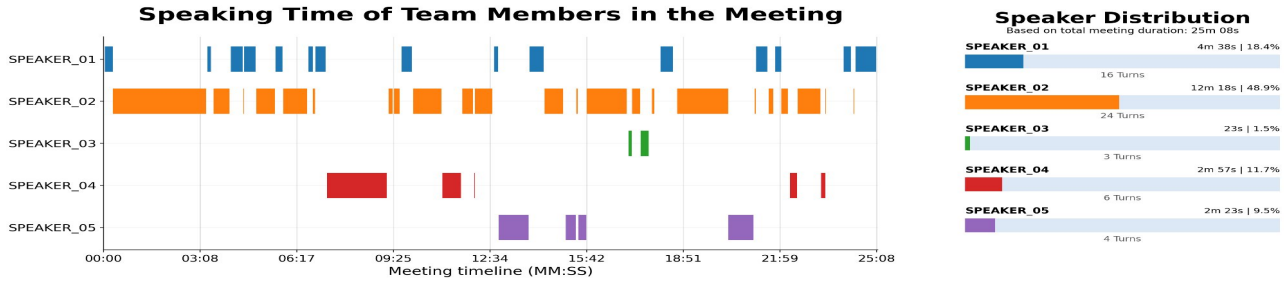

Figure 1 — Speaking time of each team member across the meeting timeline. Bar width reflects duration; right panel shows total contribution per speaker.

Analysis

Classification: **Single Phase Speaker Dominance**

This Gantt chart shows who spoke when and for how long during the meeting. It helps identify whether speaking turns were evenly distributed over time and among speakers, whether some participants dominated specific phases, and whether some phases showed higher or lower speaking activity.

In this particular meeting, speaking time was unevenly distributed across meeting participants for the first quarter, indicating that one speaker temporarily dominated this phase.

Quarter-by-Quarter Breakdown

Q1 00:02 – 06:19	Q2 06:19 – 12:36	Q3 12:36 – 18:53	Q4 18:53 – 25:10
10 Turns	15 Turns	15 Turns	16 Turns
6m 02s Active Time	5m 53s Active Time	5m 30s Active Time	5m 14s Active Time
1.6 Turns / Min	2.4 Turns / Min	2.4 Turns / Min	2.5 Turns / Min
Spk 02 Top Speaker	Spk 04 Top Speaker	Spk 02 Top Speaker	Spk 02 Top Speaker
77% Top Share	44% Top Share	46% Top Share	50% Top Share

2 Meeting Content by Function

Gantt chart · Statement category over time

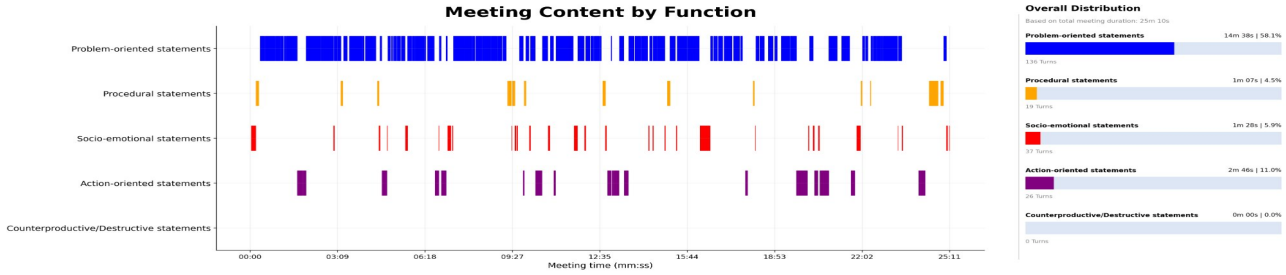

Figure 2 — Distribution of statement types (Act4Teams coding) across the meeting timeline. Right panel shows cumulative share per category.

3 Speaker Interaction Network

Network diagram · Turn-taking transitions

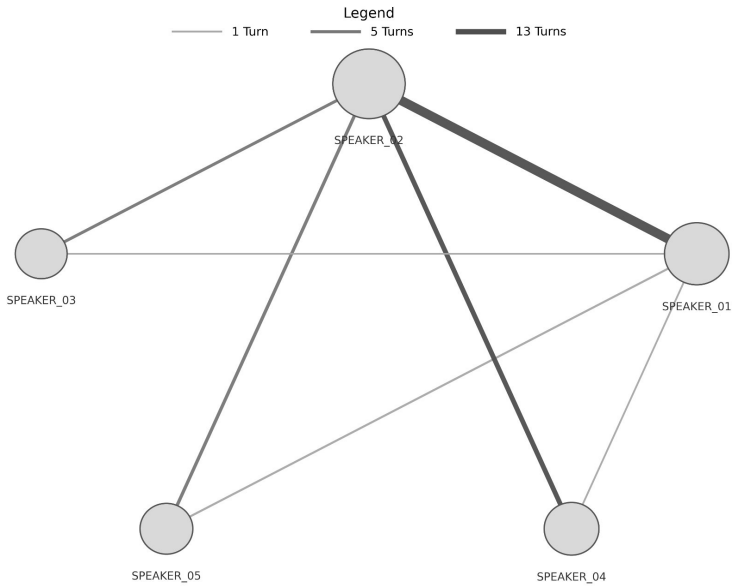

Figure 3 — Directed turn-taking network. Node size reflects total speaking turns; edge thickness reflects frequency of transitions between speakers.
